

Join Tucson Regional Clean Cities as we explore the latest in Paratransit/Taxi service: the **MV-1** powered by **clean natural gas**.

Thursday, Sept 2 • 10 a.m. - noon
at the Clean Energy CNG fueling facility

1775 E. Winsett, south of 15th St., west of Campbell.

Light refreshments served.

RSVP ccrowninshield@pagnet.org by Sept 1.

VPG's MV-1 is the only vehicle designed from the ground up for wheelchair accessibility. The MV-1 meets or exceeds Americans with Disabilities Act (ADA) vehicle guidelines, features an incredibly durable body-on-frame architecture, and is the only vehicle in its class with an available original equipment manufacturer engineered and assembled compressed natural gas fuel system option. The MV-1 is filled with features that provide a comfortable and safe ride for all.
